## TREASURER'S REPORT

CPRE London's financial position has improved in the last year, and its scale of activities has expanded with various new projects and initiatives. It is notable that grant income increased to $£ 67$ 250, where the main contributors were City Bridge Trust funding the Big Green London Map project ( $£ 40000$ ) and Foundation for Integrated Transport as a funder for the Healthy Streets Scorecard project ( $£ 14000$ ). A private donation of $£ 10000$ expected in 2020 was received in January 2021.

In 2020 the charity earned $£ 9$ 250, this income came from three key sources:

- $£ 150$ for an interview with the Director about Center Parcs
- £250 for taking part in a 'Plans for Grovesnor Square’ Webinar
- $£ 8850$ for the Mayoral Project including contributions from several partners including Greenpeace, the Ramblers, and RSPB.

In 2020, membership income was similar to the previous year. The Winter and AGM appeals attracted $£ 2375$ which is below the amount received last year. Despite the pandemic and associated restrictions on outdoor activities, including fundraising campaigns, the adverse change in income was minimal - it reduced by only $1 \%$ in comparison with 2019.

Total expenditure increased by $18 \%$ to $£ 119285$ largely due to expenses associated with the Big Green London Map ( $£ 31875$ ) and the Healthy Streets Scorecard projects ( $£ 12507$ ). These projects will continue through 2021-2022. Project and event costs include other events and initiatives which the team was working on within the year: Urban Hedgerow Initiative, landscape gardening, promotions, and publications. Office expenses dropped by $66 \%$ to $£ 1244$ because of working from home during the pandemic. Governance costs went down to $£ 1244$, which is $36 \%$ less than in the previous year, as all events were held online. As a result, CPRE London ended up with a surplus of $£ 3528$.

Also, it is important to highlight, that CPRE London successfully met filing obligations with the Charity Commission.

Therefore, at the end of 2020, CPRE London finds itself in a strong net asset position of $£ 100652$, with year-end cash balances of $£ 102536$, which included restricted funds of $£ 10$ 000 for Green Space work. Despite the pandemic and hardships in attraction of fundraising, the charity demonstrated that it remains in a good financial position to achieve its goals.

Alena Kalashnikova, Treasurer, CPRE London
April 2021
